The East Lyme Inland Wetlands Agency conducted a site walk, on Saturday, June 7, 2014, commencing at 9:00 AM.

PRESENT: Chuck Reluga, Vice-Chair; Keith Hall, Secretary; Norman Bender, Phyllis Berger, Kimberly Bradley; Joe Mingo; Gary Goeschel

ALSO PRESENT: John Lombardi, Lombardi, Sand and Gravel; Bill Fries, Centerplan Construction Co, LLC; Barbara Johnston, Nick and Donnie Dombrowski, Bud Picazio

**Solar Farm – 40-44 Grassy Hill Road/89 Walnut Hill Rd – East Lyme**

The group met at the High School parking lot at 9 AM and proceeded to the site arriving approximately 9:20 AM.

At the site, the group met other interested members of the public along with representatives of the development team.

The group walked the perimeter of the site to observe survey stakes that had been set since last month's site walk.

Work to remove sediment from northernmost basin, believed to have been deposited during the rain event on the morning of June 5, was temporarily stopped to allow safe passage of the group.

The group stopped at each of the basins on the easterly boundary of the site to note the status of additional erosion and sedimentation measures installed since last month's walk and observe current conditions.

The site walk was adjourned at 10:50 AM.

Respectfully submitted,

Keith Hall,  
Secretary
