Hi Guys,

Much as I'd love to see you all this evening at the Brookside Farm Barn, I don't think it is the best idea for us to meet there during what could be really bad weather. Therefore, I have contacted Maggi Prokop and arranged for the Barn next Tuesday at the same time. I hope this works for all of you, and if it doesn't, and you all want to meet sooner than that, I'm not wedded to that date. I just need a day or two to post our meeting as a "special meeting" with the town.

We will have much to talk about, including the Samuel Smith Farmstead's September encampment, the launch of our "Circa Signs" historic markers project to coincide with the encampment, and the introduction of a new history-oriented project that four ELHS seniors are working on with Roes Ann Hardy and me. And, as they say on late night tv, Much much more!

Please let me know you got this. Thanks and stay dry... bjl

PS. Attached please find the 24x36 post I had made from Steve's WONDERFUL winter project artwork! We will use this to help promote the Circa Signs.
