Hello Gary - This above address is & was proposed as a Conservation Easement to be saved for open space. If I recall it was as 8-10 yrs. ago.

This property is wet-land & given for a Conservation Easement for approval of the large built Subdivision called Upper Kensington.

The East Lyme Land Trust is the owner for this parcel & as a former board owner on the East Lyme Land Trust, I believe, it should

not be sold or built on for development of houses nor allowed to be considered a re-subdivision.

Please read the above message at the public hearing listed above & aloud before the close of the public hearing.

I'm against the approval.

Sincerely,

Barbara Johnston e-mail [lyme1234@yahoo.com](mailto:lyme1234@yahoo.com)
