

Rebuilt service station shows civic pride

Published October 12, 2020 4:41PM

Kudos to Guy's Oil Service Station on Route 156 in Niantic for the restoration of their devastated property after an explosion and fire devastated it last year. After reconstruction and repaving, it is now the most aesthetically pleasing of any service areas I have seen anywhere. I am so glad that stretch of 156 has not only been restored, it has been improved dramatically. It is a prime example of civic pride and local ownership. Well done!
