Thank you Frank for your prompt review and reply, it is greatly appreciated. The Church wants nothing less than a safe site and a safe building and will of course comply with all Code requirements.

Joe

Please let this email serve as an approval to the site plan as shown by Mr. Wren in his email dated 09/15/2021 at 1140 hours. Signage along the access road identifying it as a fire lane will be field verified during field inspections as this project moves forward. A full plan review of the structure will follow after the anticipated approval by Zoning. I hope you'll find this sufficient as it was the most prompt avenue for a response.

Thank you,

Frank D. Ellsworth
