Inland Wetlands Agency**

**Subject: Public Hearing on October 4, 2022**

I am unable to attend the meeting in person, but do want to add my name to people who are concerned about the Application of Jack Belowich for redevelopment of 190, 196, and 202 Flanders Road.

I moved to Clark's Hollow 3 years ago and was astonished at the amount of traffic on Flanders Road. It is taking your life in your own hands to make a left or right turn to get on Flanders Road. The traffic lights at Stop & Shop and at Society Road are not timed to allow easy access to Flanders Road. I have personally had several near misses, as cars tend to speed up if they see you want to get out. It takes a minimum of 5-8 minutes to get out. Adding another convenience store will only add to the already problematic traffic on Flanders Road.

I would deny this application until a better solution can be found.

Sincerely,  
Kathleen Ramotowski
