Gary,

My only recommendation is that since Scott Road is an existing roadway and each house will have its own driveway; is that the developer of each lot apply for a ROW permit from our office for each individual house.

This does not cost anything, just a \$1,000 bond (each driveway) and insurance on file with our office. This can be done simultaneously with the building permit for each house.

Alex

Bill and Alex,  
Attached are the revisions for the Hathaway Farm subdivision.  
Please respond to Gary so he knows you've seen it and reviewed it.  
If you have any questions, please let me know.  
Jess
