Gary,

I liked what I saw, but I can't review in detail. I'm not sure if this is possible, but it would be worth a try:

To create a way to classify an application as incomplete and unsubmitted at the staff level. There would probably be an appeal to the commission for completeness. A successful appeal would only result in a finding of completeness which would allow the applicant to be submitted in the near future (possibly on the next business day) and start the clock. An unsuccessful appeal would result in an incomplete unsubmitted application.

I'm not sure if that is possible within our legal confines, but it sounds good.

Thanks,

Bill
