Project Name ACO VAN and upfit

Dept.

Police Department

Priority

7

Please Describe the Project (What is it, where will it be, who will use it, etc.):

An ACO van for the second ACO. This is a regional team, and Waterford will contribute \$30,000 for the project

How will this capital project effect the efficiency and effectiveness of the town government?

We currently have 2 ACOs, but only one van. This will extend the life of the one van currently in the fleet, and provide a vehicle to the second ACO. Currently, the second ACO does not have a vehicle to utilize when they are both working. With 2 vans, they can be taken home by the ACOs so an after hours response would be quicker.

Project Name **Refurb of Ladder 1 (B-15)**

Please Describe the Project (What is it, where will it be, who will use it, etc.):

Refurbishment of Ladder 1 (B-15)

How will this capital project effect the efficiency and effectiveness of the town government?

The apparatus, based on its age, is approaching the end of its life based on OSHA and NFPA standards. The refurbishing extends the life expectancy at a cost considerably lower than purchasing a new one.

Project Name **Firefighter Equipment**

Please Describe the Project (What is it, where will it be, who will use it, etc.):

This is a reoccurring item to replace some of the equipment. This is governed by OSHA and NFPA. The firefighting equipment has to be tested every year, and every year, some fail due to the amount we are required to have. This investment allows us to maintain the required amount.

How will this capital project effect the efficiency and effectiveness of the town government?

This will prevent the need for one large purchase every ten years and allow us to replace damaged and unusable equipment.

Please Describe the Project (What is it, where will it be, who will use it, etc.):

Purchase a Utility Terrain Vehicle (UTV) and an enclosed Trailer for brush equipment and technical rescue equipment.

How will this capital project effect the efficiency and effectiveness of the town government?

The department does not currently have any trailers to store and/or transport special and technical equipment. The trailer will afford us the ability to respond efficiently to incidents such as brush fires, technical rescue and confined space.

Please Describe the Project (What is it, where will it be, who will use it, etc.):

An independent study of the existing two town owned buildings serving as fire houses, (Grand Street HQ) and Flanders Station, for future growth, consolidation, and improvements.

How will this capital project effect the efficiency and effectiveness of the town government?

The two town owned buildings serving as Fire HQ and Flanders have been in service since 1923 and 1979, respectively. This study should analyze the building's current conditions and provide an independent and unbiased plan with recommendations for future operational needs.
