  - a. Bacteria sampling

Latimer Brook: bacteria count of 41 (good – around the limit); other sites (6); SB2 – Stony Brook at US Rte 1 (1000 – very high); North Parkway 340; Kittie's Beach (low); Oil Mill Brook at Gurley Rd. (520 – also high)  
eDNA detected from humans was high at Stony Brook Rte 1 and Kittie's Beach; Oil Mill Brook at Gurley Rd.; from swine – Stony Brook near Sonalysts; Oil Mill Brook at Gurley Road; Kitties Beach (highest). No eDNA detected from geese or sheep. Bovine and chicken eDNA showed up at different locations (than those mentioned here).  
J. Vaudrey will access some additional new sites.
  - b. EnviroScape – Riley is working on the curriculum and went through lesson plans by grade level. He is finishing it up, after which J. Vaudrey and A. Cabaniss will look it over, along with the scripts to which they'll add in East Lyme information. A matrix of the lessons will be posted on the NRWC Google Drive for teacher access.
  - c. J. Vaudrey invited A. Cabaniss to share a revised EnviroScape cover letter and loan agreement (to include an inventory list for each of the two models), highlighting the

changes made to each document. D. Landers and J. Paganetti indicated support for the Loan Default wording with replacement value stated for a full model and case. A. Cabaniss will send the revised cover letter and loan agreement to the full Board by email for comment in October for a motion at the November meeting.

- d. Report card – A listening session held on September 9th as part of the report card. This included discussion regarding what individuals value and worry about in the watershed, among other things, to flag top topics to address that will become focal points of stories in the report card.
- e. Hole in the Wall – J. Vaudrey will again contact Dave Dickson, UConn CLEAR, for the November event. This is the best time for it given municipal workers have a short window of time between seasons. Jerry Lokken, Director of Parks and Recreation for East Lyme, says the event is ‘a go’.
- f. Renewal of NRWC Board Member appointment – S. Gonzalez, C. Tomichek, and D. Turner have been renewed. L. Tytla will be sworn in. J. Vaudrey will send letters to the Town of East Lyme for D. Danila and A. Cabaniss whose terms expire on January 5, 2026.
- g. Grant opportunities – Erik Mas of Fuss & O’Neill shared that CT DEEP grants became available today: New Coastal Habitat Restoration and Statement Green Stormwater Infrastructure Grant Program (\$7M, no match required) and Round 2 of the DEEP Climate Resilience Fund Grant Program. There will be Q&A sessions for the bigger grants. Applications are due on December 16<sup>th</sup>. J. Vaudrey will follow up with Erik Mas, Dan Mullins (ECCD), S. Gonzalez, and C. Tomichek to see if we might proceed. The updated NRWC workplan will be revisited by the Board in consideration of this grant opportunity.
