* If no ten year record is available, return is since inception.

** Separate account level performance shows returns based upon a single investment in the separate account at the beginning of the period being reported and retained throughout the period. Separate account performance is stated after deduction for underlying fund expenses and separate account charges. With respect to all performance displayed, where inception of the underlying fund predates that of the separate account, performance is given since the inception of the underlying fund. In such cases, performance given for periods prior to the inception date of the separate account is hypothetical and is based on the actual performance of the underlying fund less the fees that would have been charged had the separate account been in existence during the period.

Total return includes capital appreciation, if any, plus reinvested dividends and interest income. Results shown represent past performance and are not guarantees of future performance. Returns will vary from period to period, as will principal values.

Past performance is not indicative of future results. Total return includes capital appreciation, if any plus reinvested dividends and interest income. The investment return and principal value of an investment will fluctuate so that when units are redeemed they may be worth more or less than their original cost.

Indices represented (in bold) are not illustrative of the performance of any investment option offered through The Hartford retirement programs. The Hartford believes that the indices listed are representative of the investment objectives of the investment options listed under each benchmark index.

SI stands for Since Inception
